## What's Your Next Step?

Duration: 1 Hour

As small business owners and solopreneurs, it's easy to get stuck when issues, opportunities, ideas, or challenges arise.

When this occurs, it's helpful to talk through the situation with an outside source. During this interactive workshop, Carissa will share tips on what to do when you're feeling stuck and how to move forward with clarity and direction.

Participants will be guided through an adapted version of the Hub's signature whiteboard session process and will have the opportunity to book a 30-minute follow Zoom call to dig deeper into their individual needs.
